Fence Styles: 10 Popular Designs to Consider

3 of 11 | Photo: iStockphoto.com

The Splits

One of the most common rustic fence styles is the classic split-rail fence, which is constructed of long, **rough hewn beams** that are threaded through holes bored out in heavier, rounded posts. Traditionally, split-rail fences were used on farms to keep livestock from straying and were constructed using native American chestnut trees. Today, split-rail fences are constructed primarily of black locust wood.
